this book looks to fill the blue hole in global history by studying the role of the oceans themselves in the creation development reproduction and adaptation of knowledge across the atlantic world it shows how globalisation and the growth of maritime knowledge served to reinforce one another and demonstrates how and why maritime history should be put firmly at

the heart of global history exploring the dynamics of globalisation knowledge making and european expansion global ocean of knowledge takes a transnational approach and transgresses the traditional border between the early modern and modern periods it focuses on three main periodisations which correspond with major transformations in the globalisation of the atlantic world and analyses how and to what extent globalisation forces from above and from below influenced the development and exchange of knowledge davids distinguishes three forms of globalising forces from above imperial commercial and religious alongside self organisation the globalising force from below exploring how globalisation advanced and its relationship with knowledge changed over time this book bridges global maritime intellectual and economic history to reflect on the role of the oceans in making the world a more connected place

this book offers a comprehensive overview of the early modern military history of portugal and its possessions in africa the americas and asia from the perspective of the military revolution historiographical debate the existence of a military revolution in the early modern period has been much debated in international historiography and this volume fills a significant gap in its relation to the history of portugal and its overseas empire it examines different forms of military change in specifically portuguese case studies but also adopts a global perspective through the analysis of different contexts and episodes in africa the americas and asia contributors explore whether there is evidence of what could be defined as aspects of a military revolution or whether other explanatory models are needed to account for different forms of military change in this way it offers the reader a variety of perspectives that contribute to the debate over the applicability of the military revolution concept to portugal and its empire during the early modern period broken down into four thematic parts and broad in both chronological and geographical scope the book deepens our understanding of the art of warfare in portugal and its empire and demonstrates how the military revolution debate can be used to examine military change in a global perspective this is an essential text for scholars and students of military history military architecture global history asian history and the history of iberian empires chapter 7 of this book is freely available as a downloadable open access pdf at taylorfrancis.com under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license

in 1607 henry hudson was an obscure english sea captain by 1610 he was an internationally renowned explorer he made two voyages in search of a northeast passage to the orient and had discovered the spitzbergen islands and their valuable whaling grounds in the process hudson had sailed farther north than any other european before him in 1609 working for the dutch he had explored the hudson river and had made a dutch colony in america possible sailing from england in 1610 on what would be his most famous voyage hudson began his search for the northwest passage through the canadian arctic this was also his last exploration

only a few of the men under his command lived to see england again hudson s expedition was one of great discovery and even greater disaster extreme arctic conditions and hudson s own questionable leadership resulted in the most infamous mutiny in canadian history and a mystery that remains unsolved
