this book presents 18 peer reviewed and revised papers from the 31st annual conference on african linguistics 2000 the lead essay urges african linguistics to move in step with the practical development of the african languages as part of the decolonisation struggle the core areas of theoretical linguistics represented in the book are morpho syntax phonetics phonology and semantics pragmatics

bibliography index

since creole languages draw their properties from both their substrate and superstrate sources the typological classification of creoles has long been a major issue for creolists typologists and linguists in general several contradictory proposals have been put forward in the literature for example creole languages typologically pair with their superstrate languages chaudenson 2003 with their substrate languages lefebvre 1998 or even creole languages are alike bickerton 1984 such that they constitute a definable typological class mcwhorter 1998 this book contains 25 chapters bearing on detailed comparisons of some 30 creoles and their substrate languages as the substrate languages of these creoles are typologically different the detailed investigation of substrate features in the creoles leads to a particular answer to the question of how creoles should be classified typologically the bulk of the data show that creoles reproduce the typological features of their substrate languages this argues that creoles cannot be claimed to constitute a definable typological class
