the first edition of mentoring beginning teachers was named an outstanding academic title by the American Library Association's Choice Magazine in 2000. The expanded second edition, packed with insights, anecdotes, and updated research, provides mentors with a road map for helping new teachers become confident, reflective educators. The collaborative model outlined in the book is enlightening and rewarding for the mentor and the novice alike. The authors have incorporated the latest findings on all aspects of mentoring, from preparing to be a mentoring guide or coach to school culture and parent outreach. Teachers will find five new chapters on working with ELL students, working with parents, curriculum mapping, school culture, and the role of administrators within an effective mentoring system. Organized around a series of questions, the book allows mentors to quickly locate practical advice to match any mentoring situation. The range of resources includes recommendations for pairing mentors and teachers, questions to jump-start conversations, ideas for teacher reflection, and answers to the most commonly asked mentor questions. Mentoring Beginning Teachers, Second Edition, provides a comprehensive and tested plan for helping mentors guide new teachers in moving beyond the basics of plan, teach, evaluate to a higher level of joint assessment and inquiry.

In diesem interdisziplinären Sammelband werden Lehr-Lern-Maßnahmen und empirische Befunde zur Kohärenzsteigerung in der Lehrerbildung aus Sicht der Fachwissenschaften, Fachdidaktiken, Bildungswissenschaften und Schulpraxis dargestellt. Zudem widmen sich Beiträge der Wahrnehmung und Wirkung von Kohärenz, Bedarfen von Akteuren der Lehrerbildung sowie der Beschreibung von Unterstützungsstrukturen und Kooperationsnetzwerken. Die verschiedenen Beiträge aus den Geistes-, Kultur-, Sozial- und Naturwissenschaften zeigen auf, wie angehende Lehrkräfte durch kohärente Lehr-Lern-Gelegenheiten beim Aufbau eines vernetzten Professionswissens sowie professioneller Handlungskompetenzen unterstützt werden können.

Effective parent teacher conferences have the potential to be the single most educationally valuable event for the student during the school year, with increased parental involvement in the day-to-day operation of the schools and greater parental awareness of the educational process. It becomes apparent that educators need to be prepared to respond to renewed parental interest in the education of their children. From both an ethical and a legal perspective, communication between parents and teachers is imperative. However, inappropriate procedures and inadequate skills and knowledge can create greater problems than may have existed before the meeting. This publication is intended to help teachers to improve their parent teacher conferencing skills. First, it examines the historical background and research relating to parent teacher conferences. Then, it suggests effective ways for teachers to improve their communication skills with parents and to involve parents in the educational, personal, and social development of their children. The core elements of effective conferencing—listening, perceiving, attending, responding, and initiating—are identified and discussed. A list of 78 references is appended. JD
